

## **Atlantic Carbon plc announces the intention to expand sales with Hiller Carbon, LLC**

Atlantic Carbon plc and Hiller Carbon, LLC. have a joint entity Hazleton Hiller which operates a state of the art coal drying facility located in Hazleton, PA. The recent addition of rail service will expand sales volumes and increase revenue for both organizations. Adam Wilson, Executive Chairman stated “the relationship with Hiller is a cornerstone of our anthracite coal supply plan to the steel and foundry markets. We have a long-term supply relationship with Hiller Carbon and plans are in place to further expand our joint capabilities”. Martin Hiller, CEO of Hiller Carbon commented that the company remains committed to the Atlantic Carbon plc relationship both from the joint venture dryer and the Atlantic processing facilities”.
